

Bonjour !

# Deb Sankar Bhattacharya

From India

I am a PhD Student .This is a co-tutorial thesis

# Study

I Finished My Masters in Physics from  
**Guru Ghasidas University, India**

in the year 2010

My Masters Project at

*Variable Energy Cyclotron Centre, Kolkata*

**On Highly Purified Ge Detector (Single Crystal and Clovers)**

- Characteristic Study With Different Gamma Sources
- Data Analysis For Indian National Gamma Array

I taught Physics in two Colleges as Guest Lecturer during the years 2011 and 2012

On 06 January, 2013 I joined PhD at  
**Saha Instut of Nuclear Physics, Kolkata**  
And On 05 August 2013 I joined  
**CEA, Saclay.**

# PhD Subject

Mainly working on

**Electric Field Distortion in Micromegas Modules For LPD**

And

Studying Branching Fractions for 125 GeV Higgs

Actually I am not very sportive
